BUNDLE & EXAMPLES OF AD CREATIVES

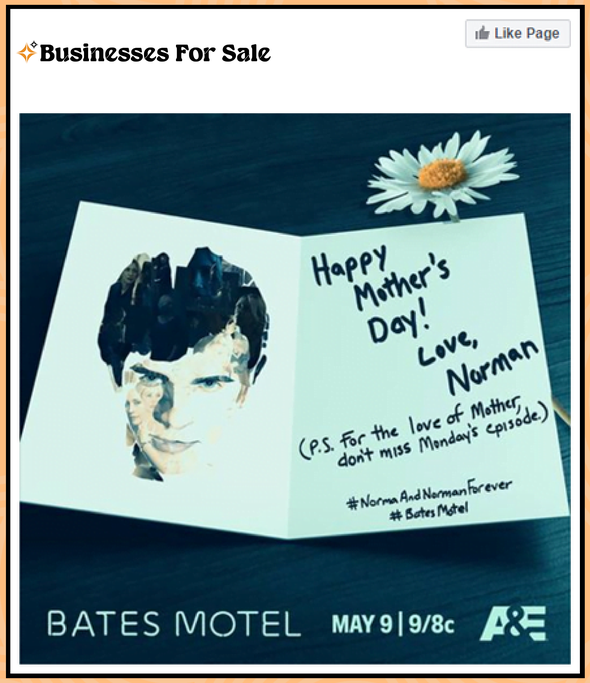

WHAT'S RIGHT?

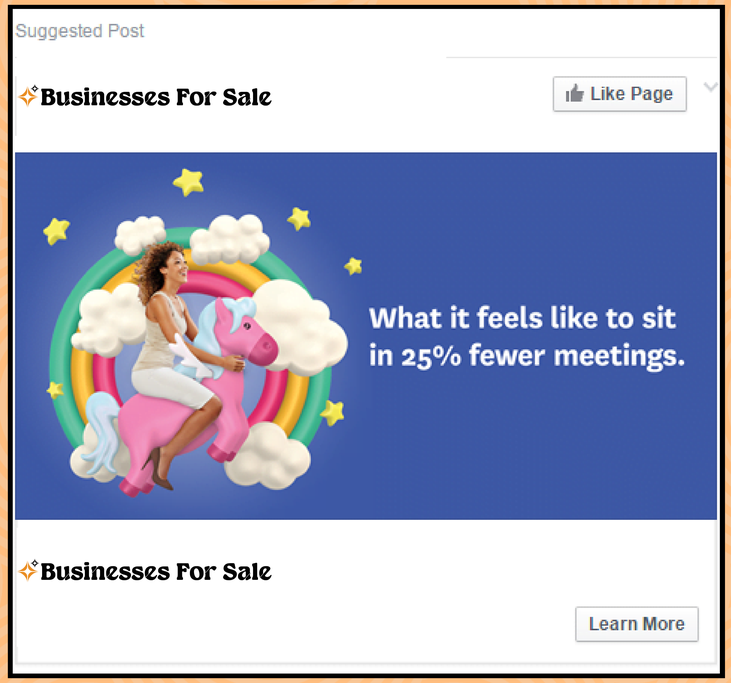

WHAT'S WRONG

KEY TAKEAWAYS

The ad reflects the pain points, it does not talk about whether or not influencer marketing works,

but is talking about SUCCESS.

It also has many emojis and good color combinations to make it more attractive to the audience.

KEY TAKEAWAYS

The ad shows reviews, which build authority in front of the audience.

The rest of the ad copy highlights the pain points.

And it is also showing off the discounts they have created.

KEY TAKEAWAYS

Pop culture references can be very effective if executed well.

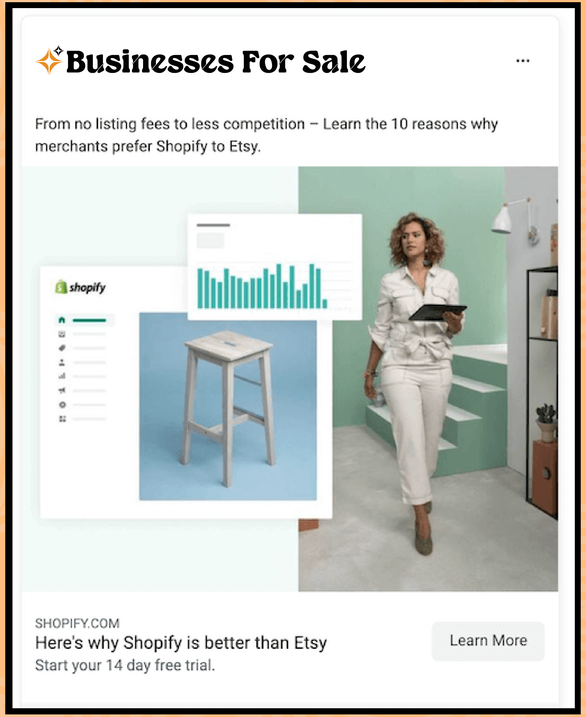

Try hand-written text in your ad creative—it has more voice to it.

KEY TAKEAWAYS

Focus on how users or customers will feel after using your product.

Be imaginative with your ad creative/imagery.

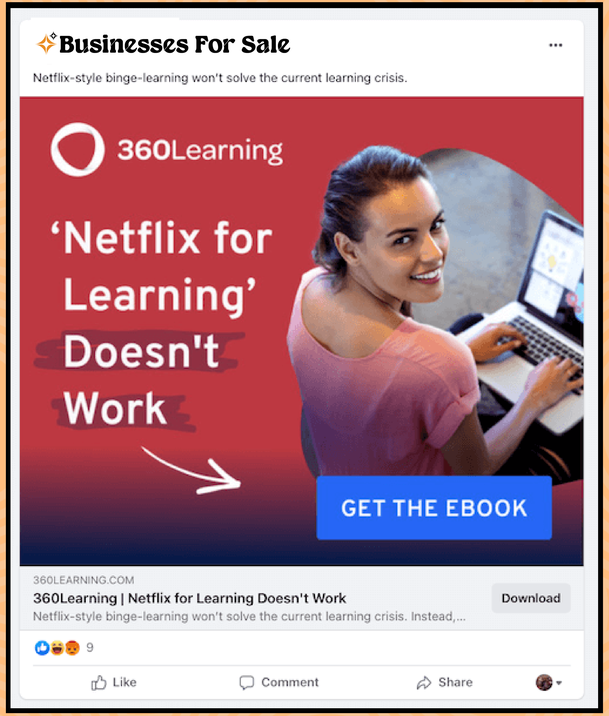

Consider using a snappy, memorable tagline

KEY TAKEAWAYS

If you're going to target your competitors, include specific reasons why you're the better option for more convincing and more tasteful copy.

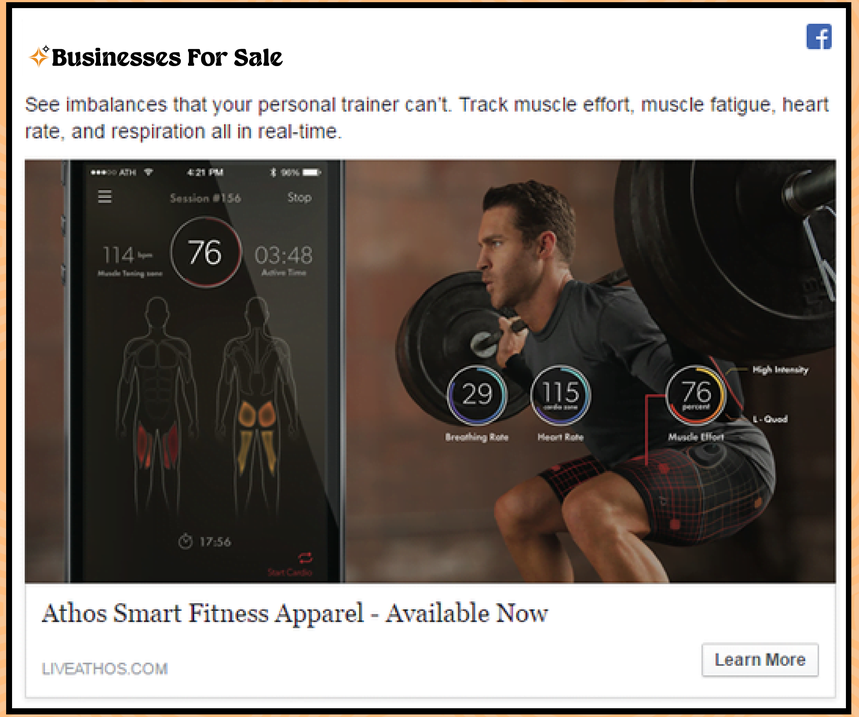

Comparing why you are much better than your competitors.

KEY TAKEAWAYS

Grab attention with your Facebook ads with a bold claim. Viewers will want to see what you have to back it up with.

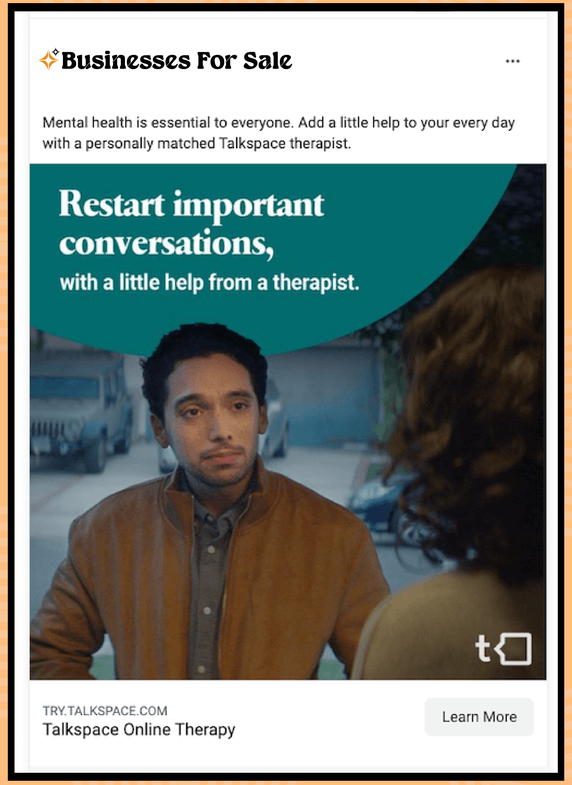

And since the TG is young people they have used "NETFLIX" to grab attention.

KEY TAKEAWAYS

This ad is also highlights the pain points that people often struggle when working out.

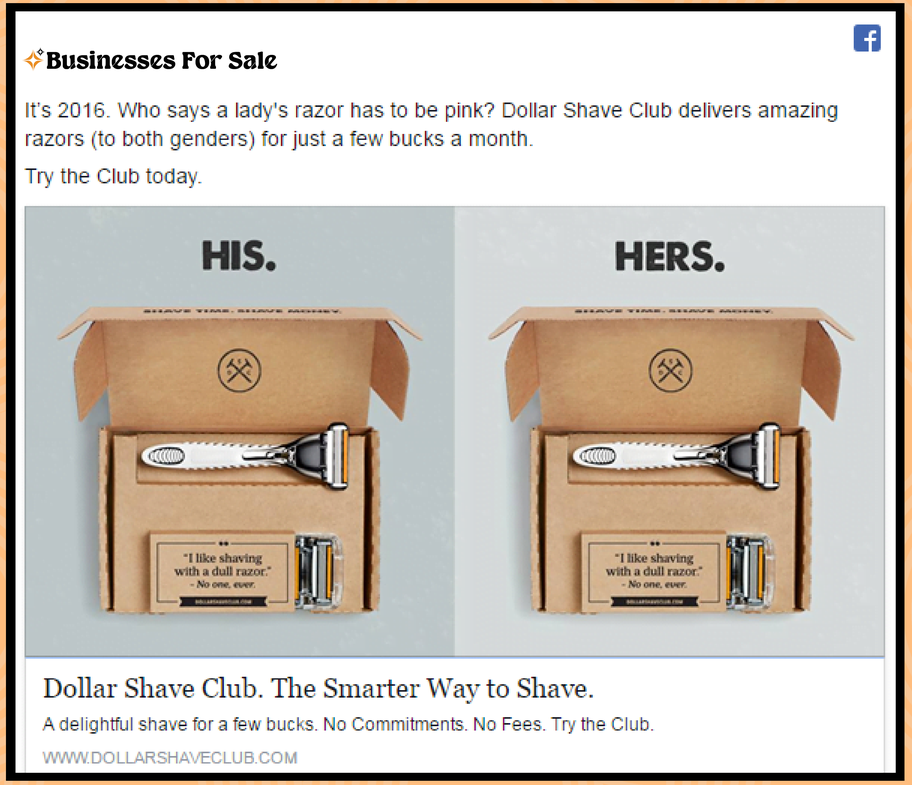

The solution is their app, with showcases how their app works.

KEY TAKEAWAYS

Go beyond the features and benefits of your offering and describe the emotions your customers will feel as a result of it.

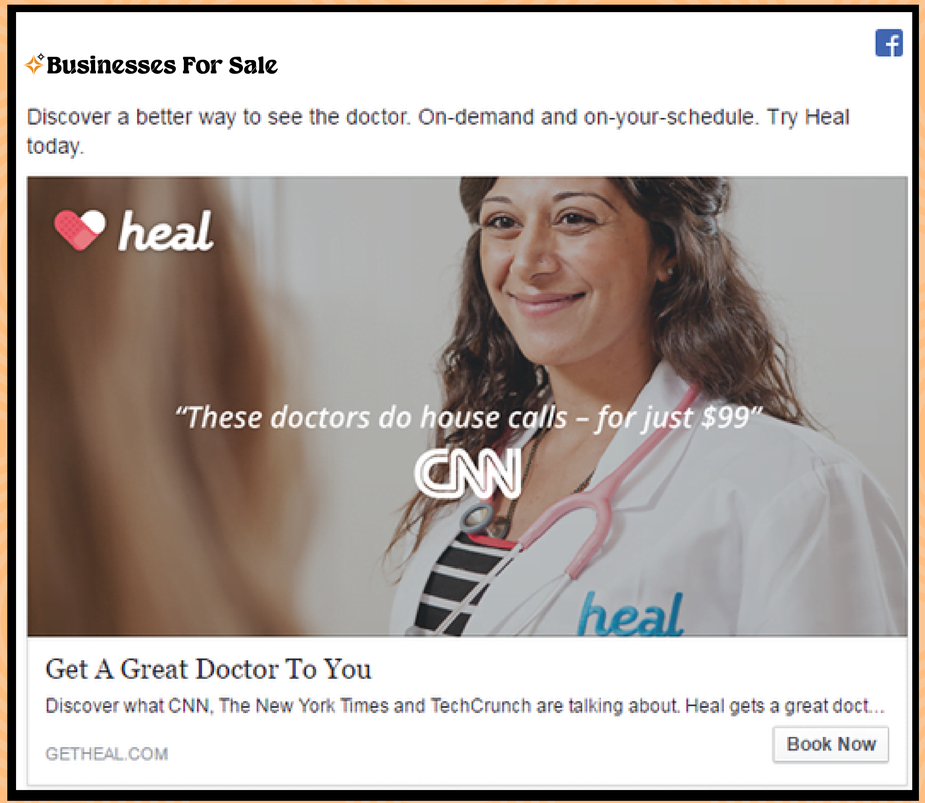

Make the most important copy of your ad stand out by putting it in the creative, with bold, contrasting colors.

KEY TAKEAWAYS

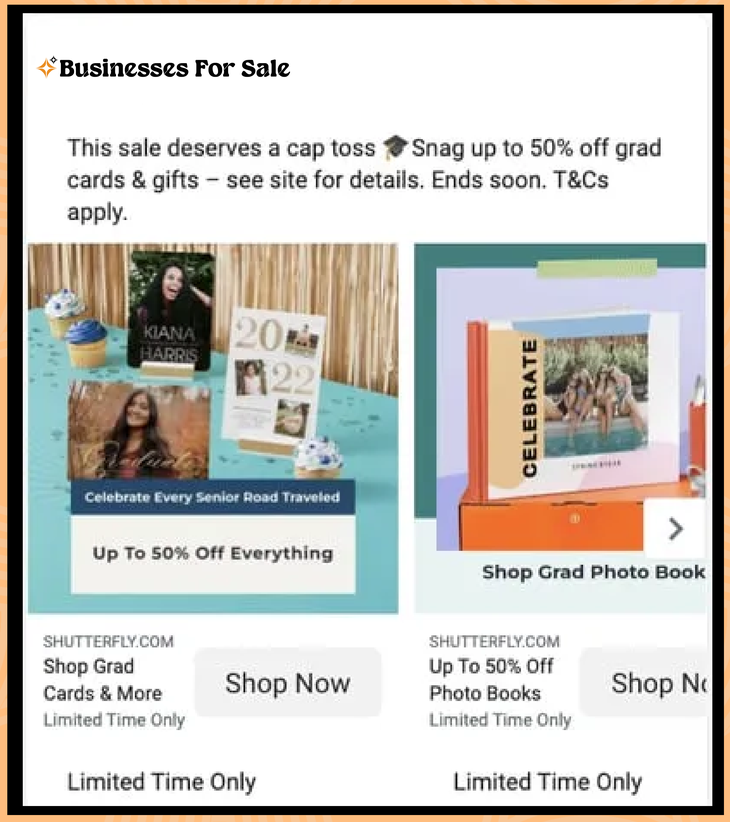

Inclusive brand values can capture exclusive attention from your audience and benefit society all at once.

Is there a way to promote an existing product line to an entirely new audience?

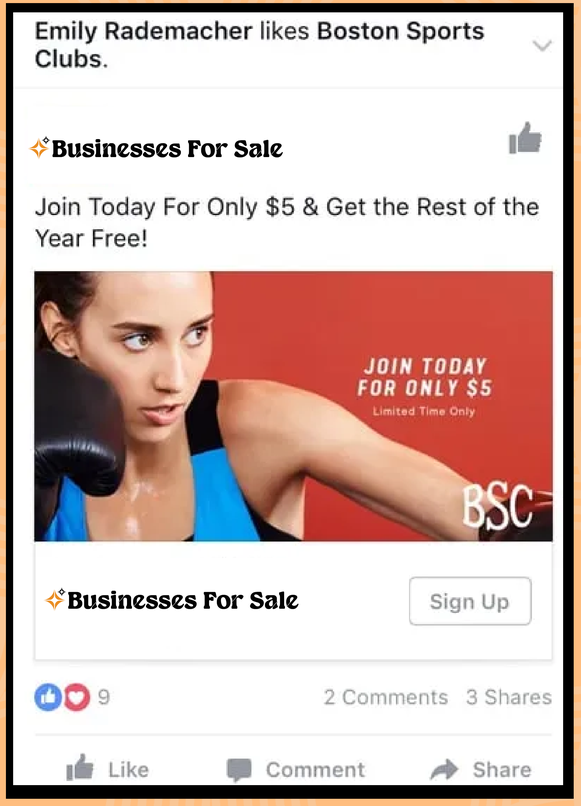

KEY TAKEAWAYS

- **Make customer pain points central to your messaging.**
- **Include strong, recognizable trust signals if possible.**
- **Keep using those interesting words! "Discover" has much more appeal than "find."**

KEY TAKEAWAYS

If you want people to see everything you have in store, these types of ads can do the work. The ad creative highlights the discount with a direct CTA.

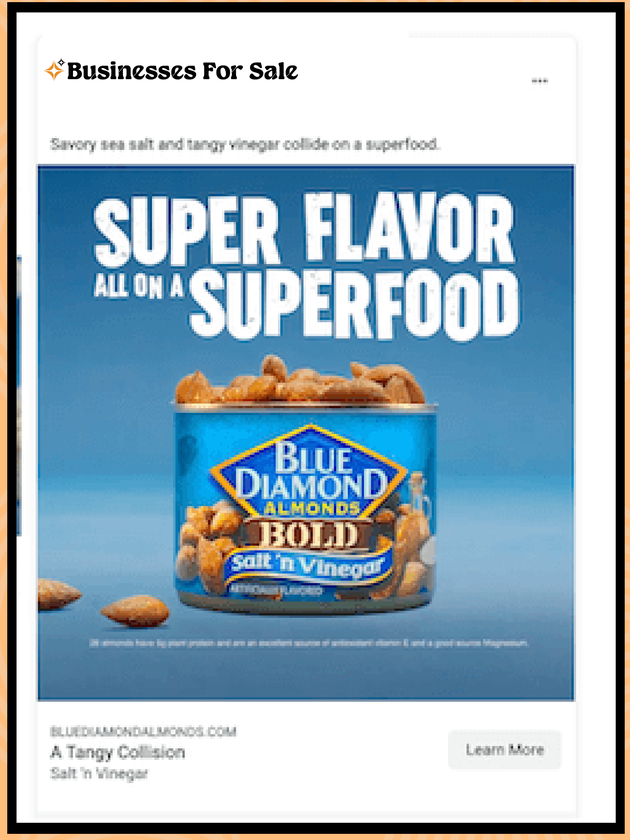

KEY TAKEAWAYS

The ad copy is directly telling the price and a sense of urgency is created to make the audience do action ASAP.

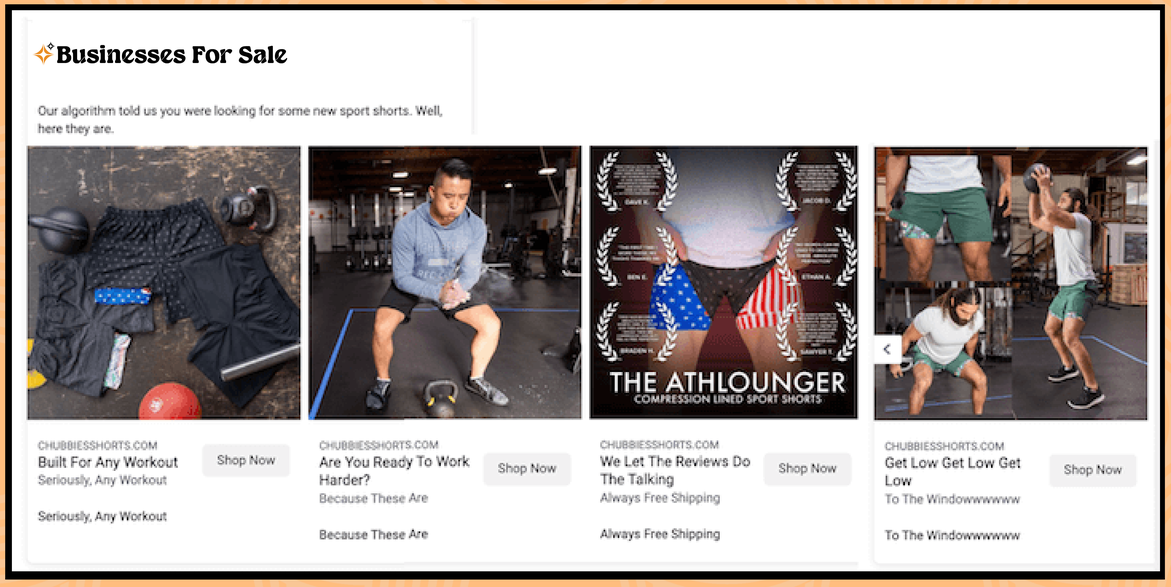

KEY TAKEAWAYS

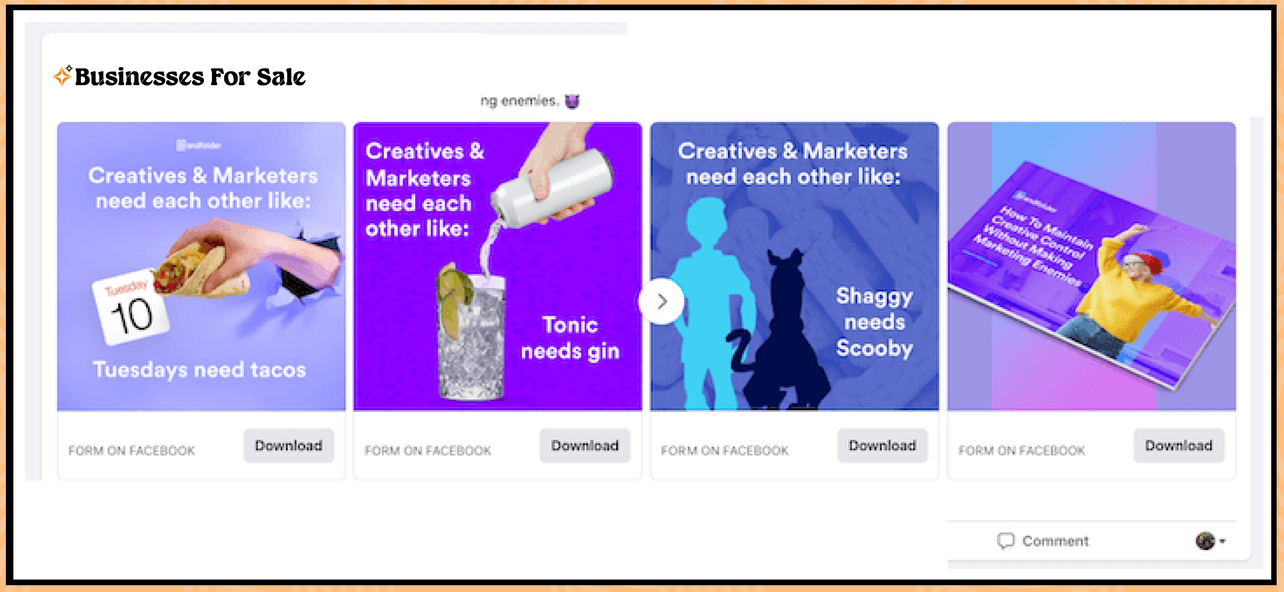

This is one of the best creative I could have found, clear offer, clear product showcasing, clear coupon code, this has more chances to convert.

KEY TAKEAWAYS

If you are into food category, you can check these type of creatives, really cool colour combination and a good awareness ad.

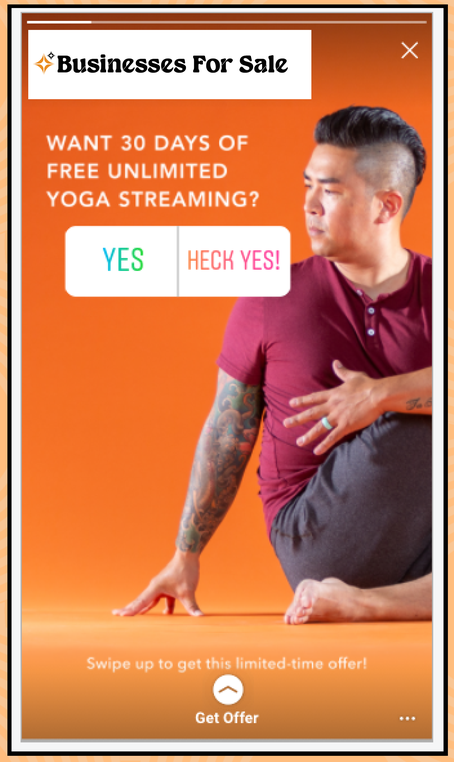

KEY TAKEAWAYS

If you want people to see everything you have in store, these types of ads can do the work. The ad creative highlights the discount with a direct CTA.

KEY TAKEAWAYS

If you want people to see everything you have in store, these types of ads can do the work. The ad creative highlights the discount with a direct CTA.

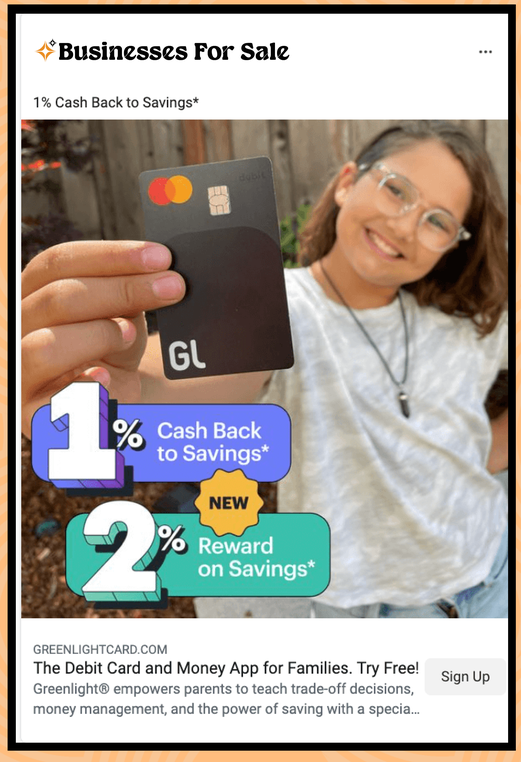

KEY TAKEAWAYS

You can also use some kind of question & answer session for the audience, and always make sure to add enticing offers to make your creative more attracted to your TG.

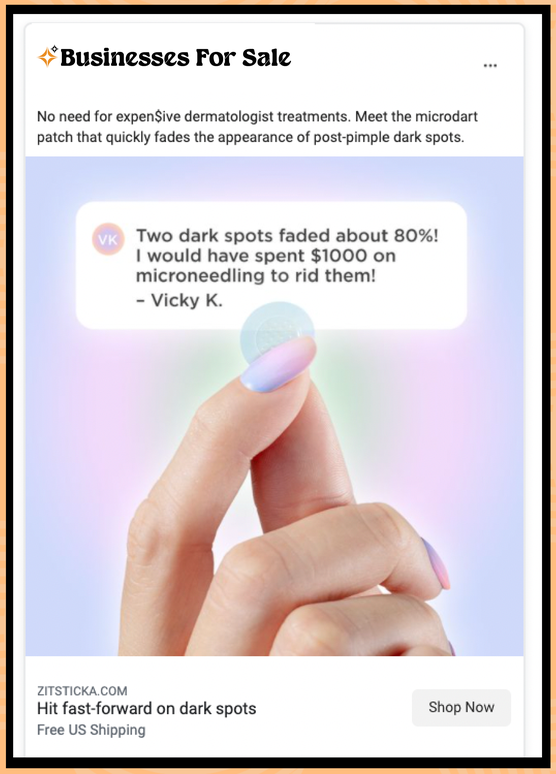

KEY TAKEAWAYS

A BTS of your product/ brand or service also works well if you are into something very creative. A good AD copy and a straight CTA can get you better results.

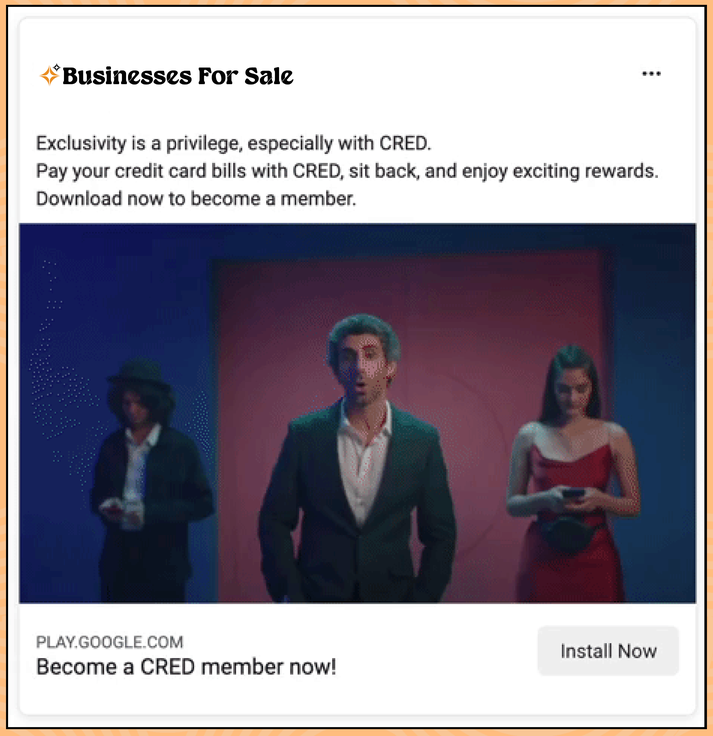

KEY TAKEAWAYS

- **You can highlight your offers in more bold way**
- **Sometimes a normal picture does the work for you.**
- **Influencer in ads build a sense of trustability and authenticity of your brand.**

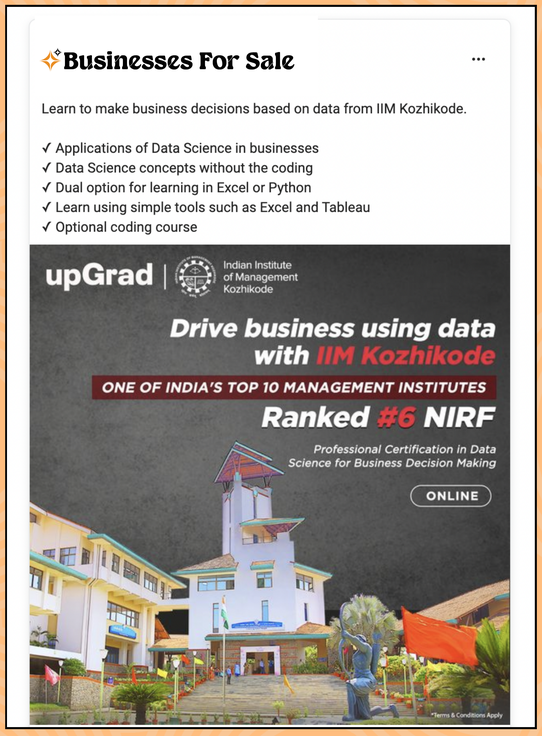

KEY TAKEAWAYS

- **Focus more on creative ads when you have to reach new people.**
- **Always focus on focusing on pain points.**
- **Words like FREE/ EXPENSIVE does works.**

KEY TAKEAWAYS

- **"Become a ____ Now" is a good ad copy when you want people to download something or want to give out some kind of membership.**
- **Also, video ads are a perfect thing if you are into awareness & engagement sessions.**

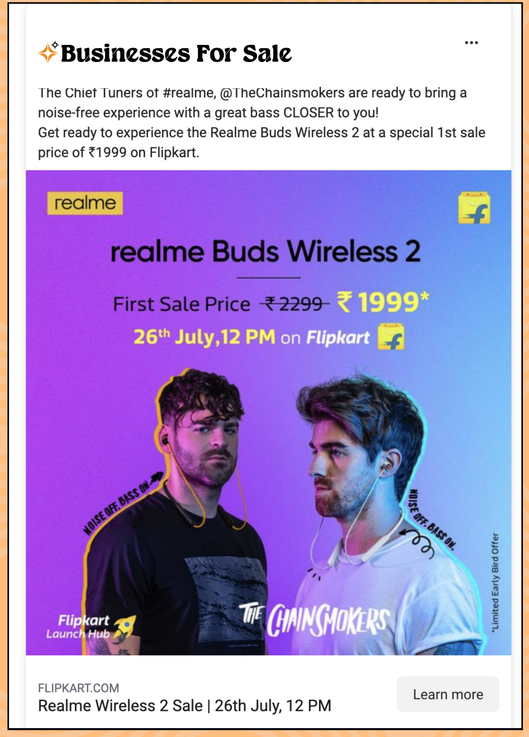

KEY TAKEAWAYS

- **Don't just focus on what your services are, for ex: this ad talks more about "driving business" rather than talking about its courses.**
- **Also, mention any kind of achievements or success you have got to make it more enticing.**

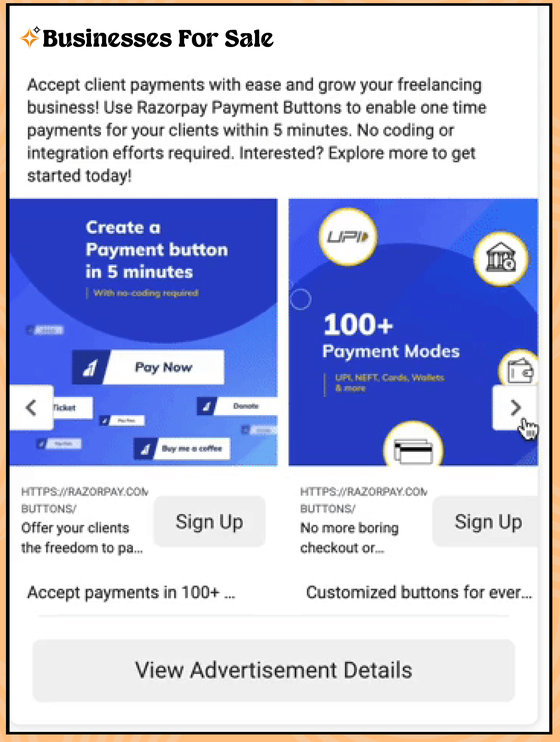

KEY TAKEAWAYS

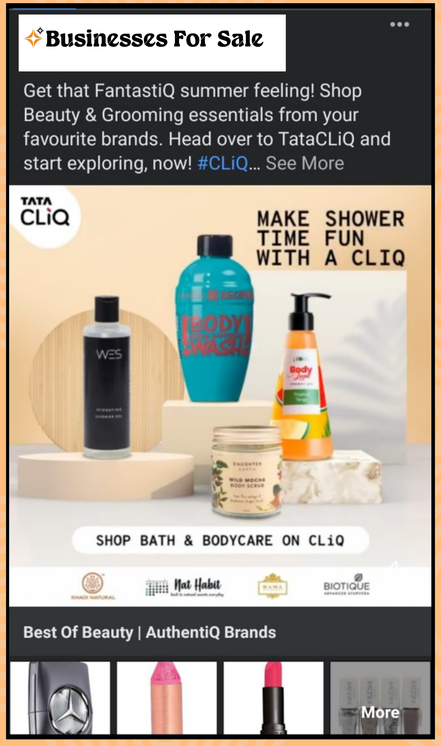

- **If you are targeting an Indian audience, Hinglish can also be a go-to, since people relate more to that.**
- **You might have seen a lot of brands using hinglish to connect more with people since that's the language we use most of the time.**

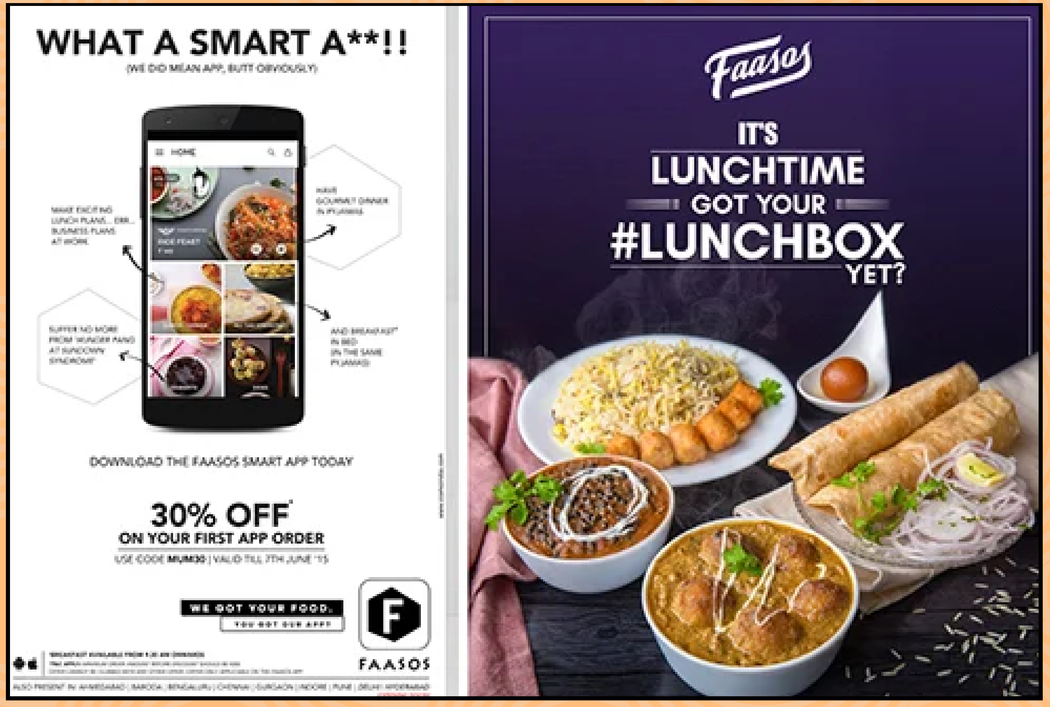

KEY TAKEAWAYS

- **The color combination**
- **sense of urgency by mentioning the date**
- **MRP and sale price**
- **The product and creative aligns perfectly with each other.**

KEY TAKEAWAYS

- Highlighting that normal people don't know much about coding.
- different types of call to action
- Ad creative is bringing out lots of things together

KEY TAKEAWAYS

- Playing with your brand and text in ad creative
- showcasing a lot of products together
- Introducing some category of your brand.

KEY TAKEAWAYS

- Using the highest quality images for clear vision.
- Clearly mention what you want your audience to do, download the app, visit your website or do anything you wish.
- Explain what you do in detail.

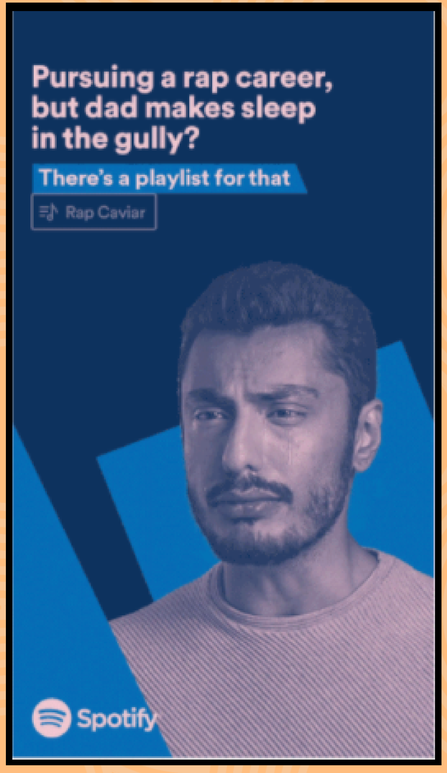

KEY TAKEAWAYS

- Clear ad creative
- Don't add to much of elements
- You decide what audience should look at first when they see your ad.
- Write the price.

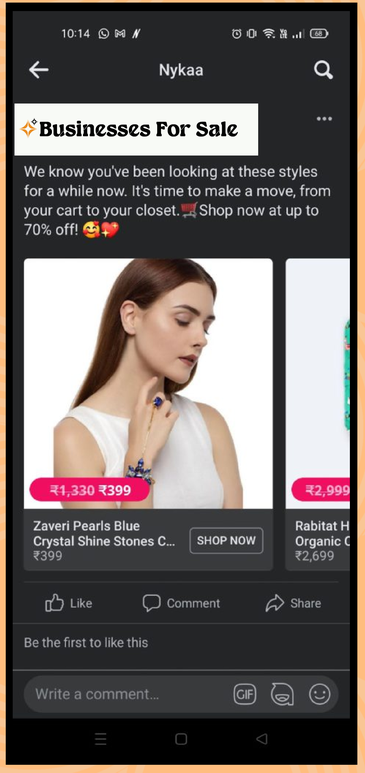

KEY TAKEAWAYS

- Again, very clear and creative, don't add too much of colors and elements to confuse the audience.
- Meme works like magic since people engage more with memes.
- Relatable memes are crazy!!!

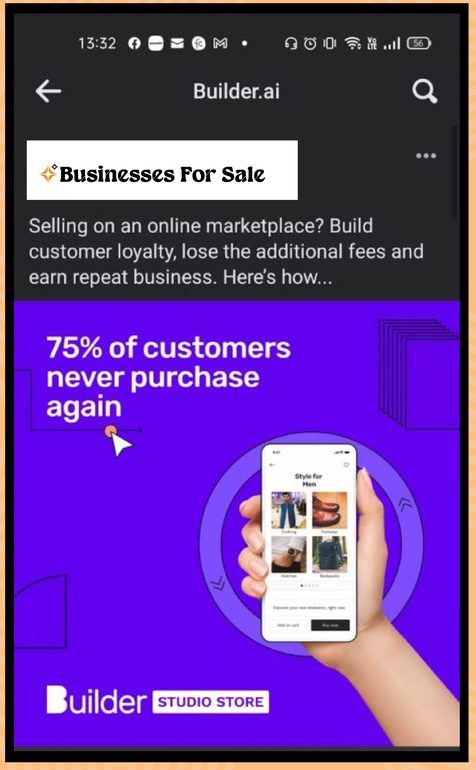

KEY TAKEAWAYS

- Again, memes do magic
- When people look at memes they stop and check the meme out whether its branded or not branded
- Focus on content that is relatable.

KEY TAKEAWAYS

- Just the product, MRP and sale price
- These three things can also do some good.
- Don't add much of things in you creative.

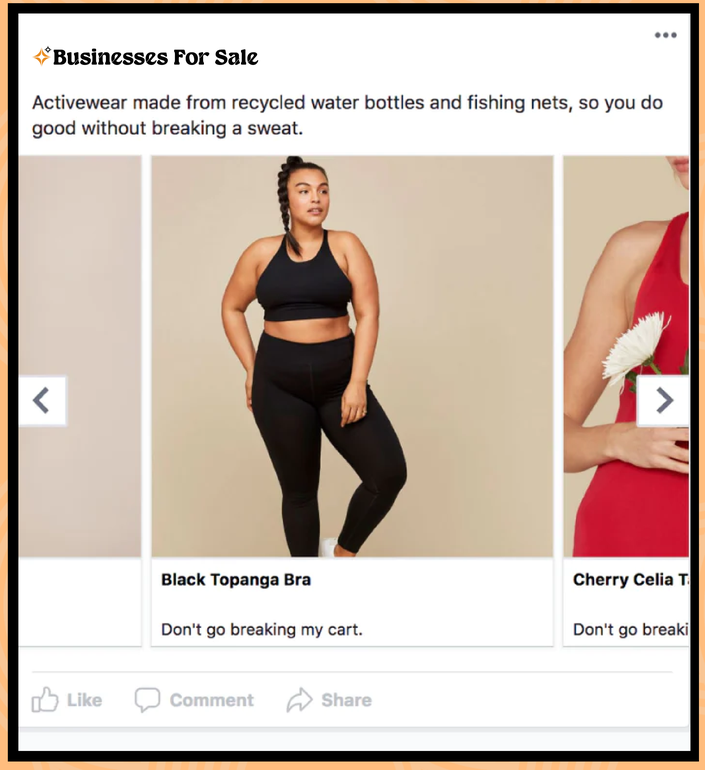

KEY TAKEAWAYS

- adding what your existing customers think.
- what are the main benefits
- why someone should buy

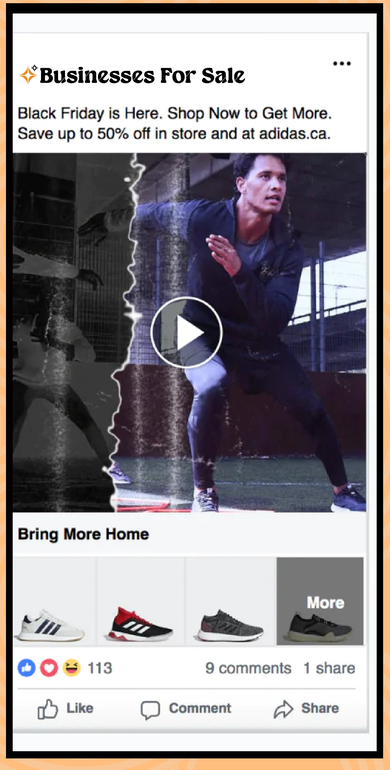

KEY TAKEAWAYS

- minimal ad creative & heavy ad copy.
- explain things in ad copy & keep your creative minimal.

KEY TAKEAWAYS

- Different CTA for every carousel image.
- Clear background and visually appealing image.

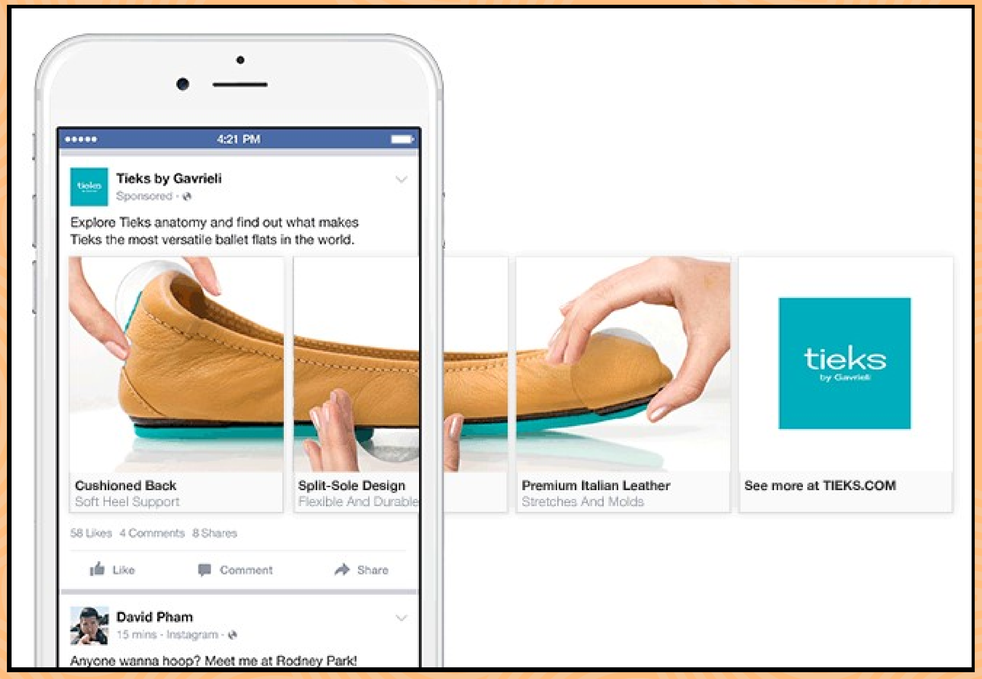

KEY TAKEAWAYS

- Video ad as the main ad and rest you can add as scrolling images.
- Video ads are necessary.

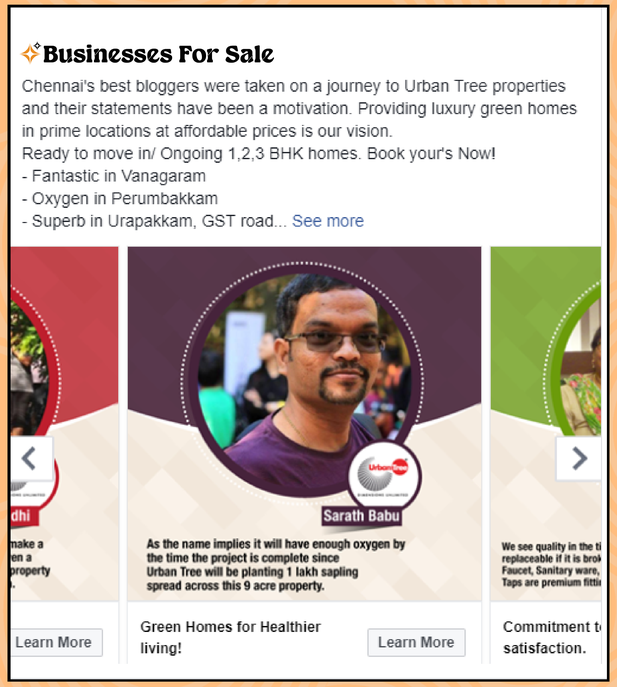

KEY TAKEAWAYS

- **Clear headline and ad copy**
- **clear CTA**
- **clear way of telling the offers**
- **Simple and minimalistic ad creative to get more conversions.**

KEY TAKEAWAYS

- **This is one of the most creative ad in carousel format I have seen.**
- **If you do a lot of creativity in ad people just stop to look at the ad because its just "too beautiful".**

KEY TAKEAWAYS

- **Headline talks about the pain point**
- **The main ad copy talks about what are the things to solve it**
- **Ad creative bring the brand as a solution**
- **The CTA button brings a direct call to action.**

WELL, YOU NOW HAVE AN IDEA OF HOW TO TAKE IDEAS FROM AD CREATIVES

The ad creatives attached below are for you to take ideas from them and implement them on your ad creatives.

Just remember three things:

- **An ad creative should be very unique and different from others.**
- **You should always add a clear CTA button, a catchy headline and good ad copy to convert better.**
- **Make sure to include any offers you have in a highlighted way and what is that you are offering that is different from everyone in the market.**

THE DIFFERENT YOUR AD CREATIVE IS, THERE ARE GREATER CHANCES FOR IT TO CONVERT.

CAROUSEL ADS

Carousel ad's best practices are:

- **Highlight a product**
- **Tell a story**
- **Showcasing a collection**
- **Product tour**
- **Showcasing how to use the product**
- **Provide a variety of links**
- **Use a large product set**

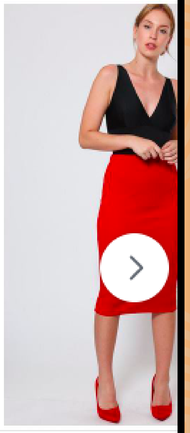

The ads I have gathered below will give you an idea of what good ad carousels look like.
